The screenshot shows a software interface with a 'Result Grid' tab. Above the grid, there is a 'Filter Rows:' label followed by an empty text input box, and an 'Export' button to the right. The grid itself contains a single column titled 'Tables_in_forecast_db'. It lists four database tables: 'forecast_history', 'notifications', 'sales_data', and 'users'. The rows for 'notifications' and 'users' are highlighted with a light blue background.

```
1
2 • SELECT * FROM sales_data;
3
```
